Objective	Seeking a position as a software development lead/supervisor/manager. Looking for a position that will allow me to utilize a combination of my existing abilities as well as learn new skills.	
Skills	<ul style="list-style-type: none"><li>• Effective communicator (written and oral),</li><li>• Experienced in the following programming languages and technologies: C# ASP.NET, MS SQL 2000/2005, XML, HTML, JavaScript, C++, C, ASP, MySQL, Visual Basic, MS Access, Perl, Assembly, Linux shell scripts</li></ul>	
Experience	Zions Bancorporation/Amegy Bank Houston, TX	Mar 2004 – Present
	Worked primarily with the eBusiness and Treasury Management business units developing secure Credit Card and eCheck web applications for corporate and government bank customers in C# ASP.NET and SQL. Involved in Full Cycle Design and Development as well as migrating existing Classic ASP to C# ASP.NET. Main focus was developing dynamic reusable products that could be licensed to multiple customers with no code modification or redeployment. Also responsible for gathering information and creating design documents and giving internal company presentations for the applications developed. Worked closely with the QA department to solve issues before and after final deployments to production environments.	
	El Paso Energy Corporation (contract) Houston, TX	Mar 2002 – Mar 2004
	Integral part of a large team for fast paced Full Cycle Design and Development of Oil and Gas Production accounting System. Major focus was on the Tax and Regulator Reporting, Gas Supply and Flow Control modules, and technical subsystems for information consolidation and sharing across modules. Wrote comprehensive design and layout documents for C++/SQL processes, SQL database tables, database triggers, Crystal Reports, and Versata screens. Worked with a team of developers to write process component DLLs using C++ with QFC and embedded SQL. Collaborative development using VSS (Visual Source Safe).	
	Savatech Inc. Houston, TX	Jul 2001 - Oct 2001
	Web development/hosting company. Web development using the following languages: ASP, SQL, MySQL, Java Script, HTML, CSS, SSI. C++ programming for global class library including Zip/UnZip class and FTP client class and custom IIS ISAPI web filter DLL.	
	i360 (contract) Houston, TX	Oct 2000 - May 2001
	ASP/SQL, VB web development, hosting/collocation company. Conversion from MS Access programs to ASP/SQL. Modified and integrated existing MS Access Programs with VB and ASP. Intranet application development in ASP/SQL. SQL and U/SQL ODBC databases used in ASP program to generate complex AR reports. Developed C++ ActiveX web component used by an ASP intranet application to control printer parameters. HTML, CSS, Java and dynamic Java web applications.	

MindZipper Networks Inc.  
Houston, TX

Jul 1999 - Oct 2000

ASP/SQL, VB development for Web hosting/collocation company. Worked on many Internet and Intranet web sites to provide custom solutions for clients. Used ODBC to connect to Access databases and local and remote SQL servers for secure online store orders and product lists. ASP, VB, ODBC and C++ used for back end data manipulations. Also used HTML, CSS, Java and dynamic Java web applications. Some ColdFusion experience. Linux and Windows 2000 web/SQL/DNS server administrator.

---

ElectraSoft  
Missouri City, TX

Jun 1995 - Jun 1998
